An efficient approach for determining a price is to send out a survey to your present customers. If these prospects have already bought an e-book from you, ask for their opinion in terms of price. Do this by making a sales page for the brand new e-book, but don't include a value on that page. As an alternative, add various hyperlinks to survey questions that ask pointed questions to assist you in assigning a price to your ebook.

One other technique is to check out prices by making a number of duplicate gross sales pages with different costs on each page. Make sure that your gross sales copy is strictly the same on every

page, and contains your selling-handle sentence. Then figure out for each web page the conversion ratio between visitors to your web site and gross sales of your book. This can tell you what your optimum value is.

Finally, if you happen to've written a e book that solves a drawback or presents a brand new approach, your ebook will herald each traffic and profits.
