An efficient approach for figuring out a price is to ship out a survey to your present customers. If these prospects have already bought an ebook from you, ask for their opinion when it comes to price. Do that by making a gross sales web page for the new e book, but don't include a value on that page.

As a substitute, add quite a lot of links to survey questions that ask pointed questions to help you in assigning a price to your ebook.

One other technique is to test out prices by creating a number of duplicate sales pages with different prices on each page. Make certain your sales copy is precisely the identical on every page, and consists of your selling-handle sentence. Then work out for every page the conversion ratio between visitors to your site and gross sales of your book. This may tell you what your optimum price is.

In the end, when you've written a e-book that solves a downside or presents a new approach, your ebook will bring in both visitors and profits. So be sure you write that promoting-deal with sentence that sums up what problem your guide solves and what the benefits of your 1930 e-book might be to the customers who buy it.
