Apart from promoting your books assiduously on-line, there are a number of other methods that can enable you to sell extra books.

One is to give something away without spending a dime along with your guide, corresponding to a precious bonus item. Or bundle several ebooks underneath one worth, which lowers the worth for every book if they have been bought separately.

An effective approach for determining a price is to ship out a survey to your current customers. If these clients have already bought an e-book from you, ask for their opinion in terms of price. Do this by making a sales page for the new book, however don't embody a value on that page. Instead, add quite a lot of hyperlinks to survey questions that ask pointed questions to assist you in assigning a value to your ebook.

One other technique is to test out costs by creating a number of duplicate gross sales pages with totally different costs on every page. Be sure that your sales copy is strictly the identical on

every web page, and includes your selling-handle sentence. Then figure out for each page the conversion ratio between guests to your site and gross sales of your book. This may tell you what your optimum price is.

Finally, if you've written a guide that solves a problem or presents a new method, your book will usher in both visitors and profits. So be sure you write that selling-deal with sentence that sums up what drawback your book solves and what the advantages of your 2120 ebook will likely be to the shoppers who purchase it. And then watch your market come to you!
